

# Mount Everest.

By Emily

# The cause

Due to the success of Edmund Hillary and Tenzing Norgay climbing Mount Everest hundreds of climbers set themselves the challenge to climb Mount Everest.

From 1953 to 2006 nearly 4,500 people from all around the globe tried the same fate as Edmund and Tenzing.

The upper base camps have been scarred by human impact. Human waste dumped in Gorak Shep ways a whopping 26,000 pounds!

# Fun facts.

Mount Everest is 8848 meters high

It is over 60 million years old

Mount Everest grows by a quarter of an inch each year.
